

Description of Request: To provide an earmark of \$259,000 to fund the National Agriculture Biosecurity Center (NABC) for Phase III efforts for the development, enhancement and delivery of a targeted National Animal Health Laboratories Network (NAHLN) technical training support program. The funding is required to: (1) build and populate a lessons learned/best practices from NAHLN labs exercises and events; (2) expand animal health diagnostic screening capabilities regionally, including endemic and emerging pathogens (viruses, bacteria, and parasites) as well as prions such as BSE; (3) increase the testing capability and capacity of the Kansas State Veterinary Diagnostic Laboratory (KSVDL) in support of the NAHLN mission by conducting research on new methodologies and standardized operating procedures for enhancing and improving the efficiency of NAHLN equipment and laboratories; and (4) develop a training strategy framework for NAHLN laboratories.

EARMARK DECLARATION

HON. JERRY LEWIS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 8, 2009

Mr. LEWIS of California. Madam Speaker, pursuant to Republican earmark guidance, I am submitting the following projects that were included in H.R. 2997, the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act of 2010:

Requesting Member: Congressman JERRY LEWIS.

Bill Number: H.R. 2997, the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act of 2010

Project Name: Mojave Water Agency Non-Native Plant Removal

Account: Natural Resources Conservation Service (NRCS)

Legal Name of Requesting Entity: Mojave Water Agency

Address of Requesting Entity: 22450 Headquarters Drive, Apple Valley, CA 92307

Description of Request: \$667,000 will be provided to help complete a project to remove invasive weeds from the Mojave River area in cooperating with an ongoing local initiative. The Mojave River serves thousands of acres of federal land, including the Mojave National Preserve. Non-native plants are a constant threat to the Mojave River's ecosystem. Removing them will conserve vast amounts of water, which is a very precious resource in this area. Removal will also protect wildlife and dramatically reduce the risk of flood and fire.

Project Name: Prototype for a National Carbon Inventory and Accounting System

Account: General Provisions

Legal Name of Requesting Entity: Environmental Systems Research Institute

Address of Requesting Entity: 380 New York Street, Redlands, CA 92373-8100

Description of Request: This project will develop an online visual mapping and analysis system capable of measuring and displaying

the amount of carbon produced and removed by our nation's farms, ranches, and forests. It will allow for better, timelier, and more coordinated conservation, land management, and environmental policies at the local, state, and national levels. The project will help improve the environment and help our nation's farms, ranches, and forests.

Project Name: Nutrition, Diet, and Lifestyle Research for Longevity and Healthy Aging

Account: National Institute of Food and Agriculture

Legal Name of Requesting Entity: Loma Linda University Adventist Health Sciences Center—Lifestyle Medicine Institute

Address of Requesting Entity: 11175 Campus St., Loma Linda, CA 92354

Description of Request: This project will build on fifty years of ongoing research to support the nation's priorities for wellbeing, prevention of disease, and healthy aging. The Institute will conduct research in nutrition and diet and compare the aspects of diet and lifestyle to health and longevity. It will utilize this research to improve the health care system, to increase wellness and prevention of diseases, and to educate the community on the healthiest lifestyles and activities, such as proper dieting and nutrition. The university is situated in Loma Linda, CA, which has one of the longest-living populations in the nation.

EARMARK DECLARATION

HON. GLENN THOMPSON

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 8, 2009

Mr. THOMPSON of Pennsylvania. Madam Speaker, pursuant to the Republican standards on earmarks, I am submitting the following information regarding earmarks I received as a part of H.R. 2997, the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Act, 2010. The entity to receive funding is the Pennsylvania State University, 117 Old Main, University Park, PA 16802, in the amount of \$233,000. Funding will be used for farm- and community-level educational programs and assistance focused on value added activities. Objectives of this project are to provide research-based extension education to assist small farmers to maintain/develop new economically viable enterprises, provide support to assist small farmers develop and maintain economically viable enterprises, including applying for available and appropriate grants and loans, and helping to build community capacity to sustain growth and development of local agriculture and food sectors.

EARMARK DECLARATION

HON. TODD RUSSELL PLATTS

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 8, 2009

Mr. PLATTS. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following informa-

tion regarding earmarks I received as part of H.R. 2997, the Agriculture, Rural Development, Food and Drug Administration and Related Agencies Appropriations Act.

Requesting Member: Congressman TODD RUSSELL PLATTS (PA-19), along with other Members

Bill Number: H.R. 2997—Agriculture, Rural Development, Food and Drug Administration and Related Agencies Appropriations Act

Account: SRG

Legal Name of Requesting Entity: Penn State University

Address of Requesting Entity: 117 Old Main, University Park, PA 16802

Description of Request/Justification of Federal Funding:

Penn State University—Improved Dairy Management Practices: Penn State is a public university. Some of the most important challenges facing the dairy industry today lie in the areas of nutrient and emission management. Penn State faculty will use this funding to research nutrient management through cow nutrition modification and the impacts of emissions from dairy operations. In addition, funding will be used to develop new technologies to address problems associated with dairy production in Pennsylvania in an effort to improve water quality, lower impacts of air emissions, and use energy more efficiently. This is a good use of taxpayer funds because the sale of dairy products accounts for nearly half the farm gate value of Pennsylvania's agricultural income. The profitability of Pennsylvania dairy farms is inextricably tied to management decisions that are being made by farmers. (\$243,000)

Penn State University—Milk Safety Program: Penn State would use this funding to identify issues in milk and dairy products safety and seek interventions that can be transferred to producers, processors, distributors, and retailers to continue to improve consumer confidence in the quality of their food supply. This is a good use of taxpayer funds because dairy is the single largest economic component of the Pennsylvania agricultural portfolio. (\$771,000)

Penn State University—Sustainable Agriculture and Natural Resources: Penn State University would use this funding to create a new collaborative research and education program that will help diverse farm operations better adopt more sustainable farming practices. Investment in this special grant would increase field research and demonstration to increase the exposure of farm advisors and farmers to sustainable cropping system practices. Practices to be further investigated include: crop species and cultivars for inclusion in crop rotations that improve the performance of sustainable and organic cropping systems, especially for the Northeast; fine tuning of management guidelines for mechanical control of cover crops and weeds in conservation and no-tillage systems to reduce or eliminate herbicides; factors that better promote conservation of biological control organisms and beneficial soil microorganisms for weed seed predation and management of other pests; and practices that increase soil organic matter. This is a good use of taxpayer funds because the demand for increased farmer understanding and adoption of sustainable farming practices continues to be a high priority in the agricultural community. (\$133,000)

PERSONAL EXPLANATION

HON. J. GRESHAM BARRETT

OF SOUTH CAROLINA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 8, 2009

Mr. BARRETT of South Carolina. Madam Speaker, unfortunately I missed recorded votes on the House floor on Tuesday, July 7, 2009.

Had I been present, I would have voted "aye" on rollcall vote No. 478 (Motion to Suspend the rules and Agree to H. Res. 135), "no" on rollcall vote No. 479 (Motion to Suspend the Rules and Agree to H.R. 1129).

EARMARK DECLARATION

HON. GLENN THOMPSON

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 8, 2009

Mr. THOMPSON of Pennsylvania. Madam Speaker, pursuant to the Republican standards on earmarks, I am submitting the following information regarding earmarks I received as a part of H.R. 2996, the Department of the Interior, Environment, and Related Agencies Appropriations Act, 2010. The entity to receive funding is the Haines Aaronsburg Municipal Authority, 420 Homes Street, Willowbank Building, Bellefonte, PA 16823, in the amount of \$250,000. Funding will be used the Haines Aaronsburg Municipal Authority Water Line Interconnection.

EARMARK DECLARATION

HON. JOE BARTON

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 8, 2009

Mr. BARTON. Madam Speaker, I rise today to submit documentation consistent with the Republican Earmark Standards.

Requesting Member: Congressman JOE BARTON

Bill Number: H.R. 2997—FY10 Agriculture, Rural Development, Food and Drug Administration and Related Agencies Appropriations Bill

Account: Capital Improvement and Maintenance (construction)

Legal Name of Receiving Entity: Texas Agrilife Research

Address of Receiving Entity: 1500 Research Parkway, Suite 150, 2259 TAMU, College Station, TX 77843-0001

Description of Request: I have secured \$336,000 in funding in H.R. 2997 in the Conservation Operations account for Texas Agrilife Research.

The funding would be used to determine how to slow or stop the decline of water quality in five Tarrant Regional Water District reservoirs.

EARMARK DECLARATION

HON. ILEANA ROS-LEHTINEN

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 8, 2009

Ms. ROS-LEHTINEN. Madam Speaker, pursuant to the Republican Leadership standards on earmarks, I am submitting the following information regarding earmarks I received as part of H.R. 2647, The National Defense Authorization Act of Fiscal Year 2010.

Requested by Rep. ILEANA ROS-LEHTINEN

Bill number: H.R. 2647

Account: Defense Wide R/D/T&E, USSOCOM

Amount: \$4,000,000

Project: Transformer Technology for Combat Submersibles (TTCS)

Requested by: STIDD Systems Inc. 86 Coco Plum Drive Marathon, FL 33050

Funding for this request would enable U.S. Special Operations Command (USSOCOM) to evaluate a combat submersible boat with increased payload capacity. This technology demonstration craft would be manufactured by STIDD Systems, a private company, with testing and training facilities in Marathon, Florida. Funding for this project would bring much-needed, well paying jobs to the Florida Keys.

EARMARK DECLARATION

HON. TODD TIAHRT

OF KANSAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 8, 2009

Mr. TIAHRT. Madam Speaker, in accordance with the February 2008 New Republican Earmark Standards Guidance, I submit the following in regards to H.R. 2997, the Fiscal Year 2010 Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act.

Department of Agriculture—Preharvest Food Safety, Kansas: H.R. 2997, the FY 2010 Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act contains \$142,000 for Preharvest Food Safety and Security. The entity to receive funding for this project is the Kansas State University, located at 110 Anderson Hall, Manhattan, Kansas 66506.

The funding would be used to expand its research in emerging threats of food-borne and zoonotic diseases associated with food-producing animals.

No matching funds are required for this Department of Agriculture project.

Department of Agriculture—Grain Sorghum, Kansas, Texas: H.R. 2997, the FY 2010 Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act contains \$515,000 for Grain Sorghum, Kansas and Texas, in the Cooperative State Research Education and Extension Service's Special Research Grants Account. The entity to receive funding for this project is the Kansas State University, located at 110 Anderson Hall, Manhattan, Kansas 66506.

The funding would be used to expand existing research and education programs, particularly in genetic improvement and sorghum utilization.

No matching funds are required for this Department of Agriculture project.

Department of Agriculture—Water Conservation, Kansas: H.R. 2997, the FY 2010 Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act contains \$69,000 for Water Conservation, Kansas in the Cooperative State Research Education and Extension Service's Special Research Grants Account. The entity to receive funding for this project is the Kansas State University, located at 110 Anderson Hall, Manhattan, Kansas 66506.

The funding would be used to study ways to stop and reverse the depletion of the Ogallala Aquifer in Kansas.

No matching funds are required for this Department of Agriculture project.

Department of Agriculture—Wheat Genetic Research, Kansas: H.R. 2997, the FY 2010 Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act contains \$240,000 for Wheat Genetic Research, Kansas, in the Cooperative State Research Education and Extension Service's Special Research Grants Account. The entity to receive funding for this project is the Kansas State University, located at 110 Anderson Hall, Manhattan, Kansas 66506.

The funding would be used to collect, conserve, and distribute wheat genetic and genomic resources; develop improved germ plasm; develop genetic stocks; develop genomic resources; and support training and outreach.

No matching funds are required for this Department of Agriculture project.

Department of Agriculture—National Agriculture Biosecurity Center, Kansas: H.R. 2997, the FY 2010 Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act contains \$259,000 for the National Agriculture Biosecurity Center, Kansas, in the Animal and Plant Health Inspection Service's Salaries and Expenses account. The entity to receive funding for this project is the Kansas State University, located at 110 Anderson Hall, Manhattan, Kansas 66506.

The funding would be used to implement international linkages for food animal and food crop disease surveillance, to expand animal health diagnostic screening capabilities in Kansas and the region, and to further develop a GIs-tracking system for pathogen monitoring.

No matching funds are required for this Department of Agriculture project.

EARMARK DECLARATION

HON. GLENN THOMPSON

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, July 8, 2009

Mr. THOMPSON of Pennsylvania. Madam Speaker, pursuant to the Republican standards on earmarks, I am submitting the following information regarding earmarks I received as a part of H.R. 2997, the Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Act, 2010. The entity to receive funding is the Pennsylvania State University, 117 Old Main, University Park, PA 16802, in the amount of \$233,000. Funding will be used to evaluate the impact new management tools will have on dairy farm
